Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is in response to the Application received on 13 January 2006 in which claims 1-5 were cancelled, claims 6-9 are pending, and claim 10 doesn't have a status identifier.

Claim Objections

Claims 6-10 are objected to because of the following informalities:

There was a claim 10 in the original claims; however it was not listed in the preliminary amendment or indicated and being cancelled.

Claims 6-9 are listed as being new. However, the status identifier "new" is incorrect. It could be "original", "currently amended", or renumber as a new set of claims beginning with numeral 11.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Clark (U.S. Patent No. 6,134,336).

Regarding claims 6 and 10, Clark teaches an acoustic converter for a portable device, comprising: a housing (102), comprising a membrane rear volume (202); an opening structure (204, 205, 208, 210), located on the membrane rear volume; internal walls (fig. 5; at 502, 504, 506) located on a rear wall of the device, wherein the internal walls form an acoustic channel through which sound is directed to the opening structure; and an acoustical blocking element (426, 428), located over the opening structure, wherein the acoustical blocking element forms an acoustic seal between the opening structure and the rear wall.

Regarding claim 7, Clark teaches the acoustic converter according to claim 6, wherein the portable device is a telephone (fig. 1).

Regarding claim 8, Clark teaches the acoustic converter according to claim 6, wherein the internal walls comprise at least a single layer (fig. 5).

Regarding claim 9, Clark teaches the acoustic converter according to claim 6, wherein the internal walls are formed concentrically (figs. 2 and 5).
